ABOUT THE DEPARTMENT

The Department of Politics and Government offers majors in political science and in legal studies. We maintain 15 to 20 tenure/tenure-track faculty members annually, while serving 300 majors and 150 minors. We offer political science classes in the following areas: American Government, Comparative Politics, International Relations, Political Theory, Public Administration, and Research Methodology. Legal studies courses are geared to help students prepare for a paralegal career. Paralegals may not provide legal services directly to the public except as permitted by law. The ISU Legal Studies Program is approved by the American Bar Association.

PROFESSIONAL DEVELOPMENT AND PROFESSIONAL PRACTICE

The department requires POL 296, a one-credit hour, 9-week course that is to be taken prior to the required internship. This is a professional development course where students will create a resume, develop mock interview skills, receive information on graduate and law schools, and receive further prep for the required internship.

Upon completion of the professional development course students, will be required to fulfill 3 credit hours of an internship (1 credit hour is equal to 45 work hours). The internship will provide students with valuable career experience. The department has a faculty internship director for each major that works with political science students seeking and securing their internship. The department posts requests from a variety of different governmental agencies, but also expects students to finalize their own placement. The director of legal studies coordinates internships for legal studies students and political science students who are placed with legal employers.
